

KONGSBERG AERONAUTICAL SIGNERER MEMORANDUM OF UNDERSTANDING JAPAN BASERT WEATHERNEWS INC.

DRAMMEN, 5. februar 2022 - Kongsberg Aeronautical har signert et Memorandum of Understanding (MoU) Japan baserte Weathernews Inc. MoU definerer et aksjoner som er ment å lede frem til en endelig samarbeidsavtale med Weathernews som "channel partner". Dette går ut på at informasjon fra Kongsberg Aeronautical's system distribueres gjennom deres kanaler og leverandørsystemer og programfunksjoner til flyselskap. Weathernews har sterk posisjon som værinformasjonsleverandør i det Asiatiske luftfartsmarkedet.

About Weathernews

Weathernews, Inc. engages in the provision of weather information content services. It operates through the Business to Business (BtoB) Business and Business to Supporter (BtoS) Business divisions. The BtoB Business division offers business support services based on weather forecasts for the industrial fields such as transportation, environment, and sports. The BtoS Business division distributes weather content and information through mobile terminals and internet sites. It also provides content to broadcasting and radio stations. The company was founded by Hiroyoshi Ishibashi in 1970 and is headquartered in Chiba, Japan.
